

KIWI FENCING HEAD NORTH FOR QUALITY

KIWI FENCING LTD WAS FORMED BY VINCE MURPHY WHO STARTED FENCING IN HAMPSHIRE IN THE EARLY 1990'S HAVING PURCHASED HIS FIRST NZ POST DRIVER OFF A SCOTSMAN.

A 5k post and rail contract

"There didn't seem to be a lot of choice for post drivers back then especially for one that could cope with the hard chalk and large flints common across most of Hampshire."

25 years and a few post drivers later he is back to the same Scotsman having taken delivery of his Bryce Profi Supreme.

"We had to replace a post driver to increase our output as we have a full book for the rest of the year. With my son Charlie involved and taking over all the fencing duties, we had a pretty good look around at what was going to suit us and decided that the Bryce was the

one he wanted to go with. It is just so laden with features that make the job so much easier – low mast height with the duplex telescopic mast, back shift and quad shift, rock spike transfer system, telescopic legs, big base plates, nylon rope system, adjustable nylon wear blocks and all the little bits and pieces – tool holders, tool box, draw bar etc. and sheer strength and build quality – it came out on top.

We had some reservations about the weight of the machine on a 95 hp tractor but these have so far been unfounded."

Charlie says "it has a combination of

Charlie Murphy in full swing

so many outstanding features and we are never beat getting posts into awkward corners with the quadshift. Also the new rockspike system is simply brilliant. I would have to say that at the end of the day a Bryce is the way forward".

"So the old man has had to agree it

was probably a good decision!"
